These are all the questions I have, thank you for answering them.

If the participant took the HIV rapid test, then say: We're going to review your test results now.

Interviewer: after giving the test results and post-test counseling, and once the participant has left, answer the following questions on the computer.

If S17 is equal to 0 or S17 is equal to 1, then skip to instruction before K1.

Ok, I understand. Thank you for answering the questions.

[If the participant took the rapid HIV test and the results aren't ready, say]:

Since you have to go, I'd like to remind you to call in the next 5 to 7 days to get your HIV test results. I'm giving you two business cards: one has your unique identification number and the second the toll-free number and hours of operation for the Call Center. When you call the toll-free number give them your identification number to get your results. We also recommend that you don't tell other people about the procedure to obtain your results, and you should keep these cards out of sight and destroy them once you have your results.

Do you have a question?

[Once you answer the questions say]:

Ok. thank you for your time. Here's your pre-paid phone card and have a nice day.
