If the participant has taken an HIV test, then say: Let's now check on the results of your rapid test.

Interviewer: After giving the participant the results for their HIV test and post-test counseling and once the participant has left, answer the following questions.

If S19 is equal to 0 or S19 is equal to 1, then skip to instruction before K1.

Ok., I understand. Thank you for answering the questions.

[If the participant took the rapid HIV test and the results are not ready, say]:

Since you've got to go, I want to remind you that you can call in the next 5 to 7 days to get your HIV exam results. I'll give you two cards: one contains your unique identification number and the second the toll-free number and the hours of operation for the Call Center. When calling the toll-free number you should provide your identification number to obtain your results. It is very important that you keep these cards in a safe place; if you lose your identification number, we will not be able to identify your results. We recommend that you do not share with other people the procedure to obtain results, to keep the cards away from anybody's sight, and to destroy them once you obtain your results.

[Say to each participant]:

Do you have any questions?

[After done answering the questions (if there's any left) say]

Ok, thank you for your time. Here's your pre-paid telephone card; and have a nice day.
