The following questions are about your sexual practices, including oral, vaginal, and anal sex, with women in the past 12 months. Now I'm going to ask you about men, including both men who look like men and men who dress or had surgery to appear like women. This includes those sexual experiences that you engaged in **VOLUNTARILY**. "Insertive anal sex" refers to sex where you placed your penis in another man's anus. "Receptive anal sex" refers to sex where another man placed his penis in your anus. "Oral sex" refers to sex where a man's mouth touched your penis or your mouth touched another man's penis.

The following questions are regarding the type of men you have had sex with. By "stable male partner" we refer to men whom you had a sexual relationship with as well as an emotional or romantic relationship, such as a life partner or a boyfriend. By "male sex worker," we refer to men whom you paid to have sex with (prostitute, escort services). By "casual male partner" we refer to men with whom you had sex, but with whom you did not have a romantic or emotional involvement, for example a one night stand, friends with benefits, sex buddies, or men with whom you have sex "with no strings attached." Some questions may sound repetitive but please try to answer all of them. Remember that your answers are very important for our studies.

Ok., I understand. Thank you for answering the questions.

*[If the participant took the rapid HIV test and the results are not ready, say]:*

Since you've got to go, I want to remind you that you can call in the next 5 to 7 days to get your HIV exam results. I'll give you two cards: one contains your unique identification number and the second the toll-free number and the hours of operation for the Call Center. When calling the toll-free number you should provide your identification number to obtain your results. It is very important that you keep these cards in a safe place; if you lose your identification number, we will not be able to identify your results. We recommend that you do not share with other people the procedure to obtain results, to keep the cards away from anybody's sight, and to destroy them once you obtain your results.

*[Say to each participant]:*

Do you have any questions?

*[After done answering the questions (if there's any left) say]*

Ok, thank you for your time. Here's your pre-paid telephone card; and have a nice day.
