*Interviewer: after giving the test results and post-test counseling, and once the participant has left, answer the following questions on the computer.*

***If S20 is equal to 0 or S20 is equal to 1, then skip to instruction before K1.***

Ok, I understand, thank you for answering the questions.

*[If the participant took the rapid HIV test and the results are not ready say]:*

Since you have to leave, I want to remind you that you'll be able to call in the next 5 to 7 days to get your HIV test results. I'm giving you two business cards; one has your unique identification number and the other the toll-free number and business hours for the Call Center. When you call the toll-free number, give them your identification number to get your results. It is very important that you keep these cards in a safe place, if you lose your identification number, we will not be able to identify your results. Also, remember not to mention to other people the procedure for obtaining your results and keep these cards out of other people's sight, and destroy them once you've obtained your results.

*[Say to each participant]:*

Do you have any questions?

*After answering the questions (if any) say]:*

Okay, thank you very much for your time. Here's your pre-paid phone card and have a great day.
